Components of the Taman Tugu Project

1. The Urban Forest Park
   - Conserving and activating an urban tropical forest park

2. The Connectors
   - Stitching the urban fabric of the city making it more pedestrian friendly and accessible.

3. Khazanah ILMU
   - A public learning and innovation commons
   - Innovate. Learn. Mentor. Unite

4. Setting up of the National Heritage Trust (Amanah Warisan Negara)
   - To own and manage Taman Tugu and potentially other assets
Urban green lung in the heart of Kuala Lumpur
Located amidst existing parks, heritage & cultural sites.
Khazanah gives its foundation RM3bil

KUALA LUMPUR: Khazanah Nasional Bhd has provided its foundation, Yayasan Hasanan, with a RM3 billion endowment, which will be invested to provide returns that will enable a targeted RM150 million in annual funding for the foundation.

The funding will cater to the foundation’s work in five core areas: education; community development; environment; arts, heritage and culture; and knowledge, as well as three other strategic initiatives, namely capacity building, public spaces and incubation of social enterprises.

Hasanah was established in 2014 to consolidate and expand Khazanah’s corporate responsibility work in these core areas, it said in a statement.

Hasanah’s Board of Trustees chairman Tan Sri Md Nor Yusof, who is also a member of Khazanah’s board, presented Hasanah’s inaugural annual report, The Hasanah Report 2014, at a networking event with Hasanah’s partners. – Bernama
Exciting times in Kuala Lumpur. Good to have met the team from Khazanah during their fact-finding visit last year.

Forest in the city

A huge green lung has been planned for the city centre around the Tugu Negara (National Monument) that will become a symbol of Kuala Lumpur much the way Hyde Park and Central Park are icons of London and New York respectively. The rainforest park will have recreational and educational facilities, and the people have been invited to help name it. >See Page 8 for report by RAZAK AHMAD

Taman Tugu — a rainforest park

Project aims to regenerate the current secondary forest into a rich and sustainable urban rainforest park

By TANAI KALEM

NOVEMBER 5, 2021

Taman Tugu lies at the heart of Kuala Lumpur, providing a much-needed green space in the midst of urban development. The park is set to be transformed into a rainforest park, offering a unique blend of nature and urban living.

The Taman Tugu Master Plan was launched in 2017, aiming to create a rainforest park that will serve as a hub for community activities. The plan includes the addition of new trails, bridges, and seating areas to enhance the park's connectivity and accessibility. The park will also feature a new water body, with a small island and a gazebo, providing a tranquil spot for visitors.

The project is being carried out in phases, with the first phase focusing on the park's infrastructure and the construction of a pedestrian bridge. The second phase will involve the planting of native trees and shrubs, creating a diverse habitat for flora and fauna.

The project is expected to be completed by 2023, offering a breath of fresh air in the heart of the city.

‘Central Park’ Malaysia

Najib mahu Taman Tugu dibuat pemilikan rumah tamam butiran di lapang batu jadual

By Muhd. Mohd. Wajid

JANUARY 10, 2022

Najib said Taman Tugu will be developed into a community park where the public can enjoy the greenery and participate in various activities. He added that the park will serve as a hub for community gatherings and events.

Najib also said the park will feature a variety of recreational facilities, including a playground, basketball court, and cycling track. He added that the park will be equipped with state-of-the-art technology to ensure it is accessible to all.

The Taman Tugu will also serve as a breeding ground for the local ecosystem and act as a buffer against urban development. He said the park will be a place where the public can connect with nature and enjoy the benefits of green spaces.

Najib also expressed his hope that the park will be a source of pride for the people of Kuala Lumpur and encourage them to take care of their environment.

For Perpetuity

Park will be run by a public trust, says Khazanah MD

Khazanah National Fund chairman Sam Kochhar Ramji said the park will be run by a public trust, which will ensure its sustainability and allow the public to participate in its management.

He added that the trust will be responsible for the maintenance and development of the park, ensuring that it remains a valuable asset for future generations.

Khazanah National Fund is a government-linked investment company in Malaysia, with a mandate to drive economic growth and development.

The park will be a place of cultural and historical significance, with several monuments and landmarks to be preserved. It will also feature a museum to showcase the history and culture of Kuala Lumpur.

The park will be open to the public from 7 am to 6 pm daily, with facilities such as a cafe and restrooms available.

The Taman Tugu will be a significant addition to the city's green spaces, offering a place for recreation and relaxation in the heart of the city.
